

Hamilton Beach® Professional 5 Speed Hand Mixer

Ultimate Mixing Power - This professional grade, DC powered hand mixer effortlessly glides through some of the toughest ingredients giving you complete control of the mixing process. Designed with innovation in mind, the patent pending Easy Clean beaters prevent clogging, saving precious time while preparing meals. Whether you are mixing cookie dough, brownie batter or whipping savory mashed potatoes, this mixer will get the job done.

Versatility - Reduce the risk of messy splatters with the hand mixer's Slow Start™ Technology. The starting speed is half as slow as a traditional mixer so you can confidently begin mixing while keeping ingredients where they should be, in the bowl. The lockable swivel cord keeps it out of the way (and your bowl) and works great for either left or right-handed operation.

Multiple Speed Options - Mix on any of the five speeds with the option of the QuickBurst™ function for an extra punch of power. This hand mixer was built for every day mixing jobs.

Store and Clean with Ease - The included accessories, two Easy Clean beaters, two stainless-steel wire beaters and whisk can be stored in the convenient snap-on case and safely placed in the dishwasher for stress free cleanup. We are so sure of this hand mixer, we backed it with a five-year limited warranty.
