

Hamilton Beach®

Hamilton Beach® Stack & Snap™ Duo Food Processor

Dual-Bowl Versatility – Designed with 14 and four cup bowls to process different amounts of ingredients whether you're feeding two or the extended family. Shred cheese, cabbage and potatoes, slice carrots, cucumber and squash, purée hummus, and knead dough in the larger bowl. The four-cup mini bowl is perfect for smaller batches, and you'll reach for it every time you have a quick chopping task. The sealed 14-cup bowl has a pour spout so you can conveniently pour dressings or any other liquids without messy spills.

Ease of Use – There's no more struggling to assemble with the Stack & Snap™ Duo Food Processor in your kitchen. Say goodbye to twist locking, the bowl stacks on the base with no twisting, and the lid locks onto the bowl with simple clips. The simple function guide shows you which blade to use and which button to press.

Save Prep Time – The 500-watt motor packs plenty of processing power, and the two speeds plus pulse mode provide all the control you need. The Big Mouth® feed chute can fit most whole tomatoes, potatoes and onions reducing the need for pre-cutting.

Versatile Processing – You can slice, shred, chop, puree and knead with the included reversible slicing/shredding disc, two stainless steel S-blades and dough blade.

Convenient Features – The two bowls nest together for compact storage. All parts are removeable and dishwasher safe for easy cleanup.
