

The Big Mouth® Deluxe Food Processor - Process More in Less Time

**Hamilton
Beach®**

Images of Hamilton Beach® products available on-line at www.hbps-imagebank.com

From spicy salsa to perfectly sliced potatoes, the Big Mouth® Deluxe food processor from Hamilton Beach® can tackle tough tasks with ease. A redesigned high-performance processing bowl is specially designed to process any size batch, from large to small. The powerful 525-watt motor makes slicing, shredding, chopping, mixing and kneading quick and effortless.

The Big Mouth's® signature, extra-large feed tube, eliminates precutting of most foods such as potatoes, tomatoes and cheese. Home chefs will appreciate the 14-cup capacity for large processing with fresh results. The Big Mouth® boasts 3 speeds plus pulse, a stainless steel chopping/mixing blade, and a reversible slicing/shredding disc. Model 70575H also comes with a popular french fry disc, which is seldom standard with food processors in this class. These blades typically must be purchased separately. The streamlined design looks great on the countertop but also fits nicely tucked away in cabinets.

KEY FEATURES

Extra-Large Feed Tube– Eliminates pre-cutting thanks to one of the largest food chutes available for a home food processor in the marketplace.

High Performance Processing Bowl – Specially designed to process any size batch, from small to large.

Capacity – 14-cup work bowl accommodates food prep duty, handling even the demands for the most ambitious dinner party.

Speeds and Power – Three speeds plus pulse and 525 Watts handle every processing job.

Three Versatile Attachments – Medium slicing/shredding disc, chopping/mixing blade, and french fry disc for the ultimate in mincing, grating, kneading, shredding and slicing.

Easy Cleanup – Bowl, lid, disc and blades are dishwasher safe.
