### Slushies, Icy Drinks and Snow Cones in Minutes

Hosts who want to mix it up for the guests can now offer homemade slushies, icy drinks and snow cones or just let them make a batch themselves with the Hamilton Beach® ice shaver.

Just drop in ice from your freezer and choose one of two settings, snow cone or, for the slightly thinner shave that is perfect for frozen drinks, slushie. For safety, it won't begin shaving until the lid has been closed.

The Hamilton Beach® ice shaver comes with a 36-ounce mixing bowl that has a paddle that mixes juice or flavoring throughout the shaved ice. Follow the markings on the bowl for the appropriate ice and liquid lines. The paddle will not turn unless the mixing bowl is placed on the base in the correct position.

When only one treat at a time is needed, simply remove the bowl and place any cup, bowl or dish in the "cup guide," up to eight-ounces.

The Hamilton Beach® ice shaver is a snap to clean up after the party because the mixing bowl, paddle and lid are all dishwasher safe.
