

Hamilton Beach® Premiere Cookware Electric Griddle with Convenient Warming Tray

Hamilton Beach®

Perfect for Family Gatherings

Images of Hamilton Beach® products are available online at www.hbps-imagebank.com

The aroma of a hearty breakfast on the griddle can lure even the sleepiest person out of bed and into the kitchen. With 220 sq. in. of nonstick cooking surface and a warming tray to keep food warm, this griddle can feed a crowd whether it's a weekend tradition or a holiday celebration. Holidays and family gatherings seem to be synonymous for cooking large meals. "When preparing breakfast, it seems there's never enough cooking space," states Betty Byrne, consumer test kitchen manager, Hamilton Beach Brands. "Having a griddle with a large cooking surface makes it easy to cook extra pancakes and meats and then place a batch in the pull-out warming tray. The cook can then enjoy the meal with everyone."

The stainless steel base, backsplash, and die-cast pan and handles make this griddle a showcase piece that blends with upscale cookware and is worthy of setting on the counter or breakfast buffet.

The stainless steel backsplash blocks greasy splatter and can be removed for cleaning. Temperature control on the griddle adjusts from 200° to 400°. The griddle can be immersed in water for easy cleaning when the cord is removed.

KEY FEATURES

Convenient Warming Tray – Keeps prepared food warm until you're ready to serve.

Premium Construction – Durable die-cast pan and handles; brushed stainless steel base and removable backsplash. Blends with upscale cookware.
