This versatile oven will become a mainstay in any kitchen. The Set & Forget™ Toaster Oven from Hamilton Beach® is the only toaster oven on the market with a built-in temperature probe. Whether roasting a chicken or baking a pork loin, the probe will cook the meat to the desired temperature.

“Consumers increasingly use food thermometers to prevent over- or under-cooking foods,” states Betty Byrne, consumer test kitchen manager, Hamilton Beach Brands. “Just program the oven to the desired food temperature and insert the probe. Once the internal temperature is reached, the cooking cycle ends. The result is flawlessly cooked, juicy meat, ready to be served.” Cleanup is easy with the detachable probe and nonstick interior.

An optional convection setting is perfect for foods requiring a crispy exterior or for browning meats. The Set & Forget™ Toaster Oven accommodates up to 6 slices of bread, a 12 in. pizza or a 7 lb. chicken and includes a bake pan, broil rack and slide-out crumb tray.

With a large digital touchpad, setting the time or functions is easy. A two-hour timer with option of automatic shutoff or keep warm after cooking is also available.

## KEY FEATURES

**Probe Cooking** – Insert built-in probe and set desired temperature. Cooking cycle ends when internal temperature is reached.

**Fast & Even Convection** – Circulates heated air around food as it cooks—perfect for pizza, cookies, or foods requiring a crispy exterior.

**Other Cooking Options** – Bake, toast, broil and keep warm.

**Capacity** – Up to 6 slices of bread, a 12” pizza or 7 lb. chicken.

**Digital Touchpad** – Large text makes setting time and functions easy. Two-hour timer with option of automatic shutoff or keep warm after cooking.

**Accessories** – Bake pan, broil rack and slide-out crumb tray.

**Easy Cleaning** – Easy-clean, nonstick interior; probe detaches and stores in covered compartment below digital touchpad.

**MSRP** – \$99.99 (Model 31230)

**Availability** – December 2009
