

BrewStation® Summit - Latest Addition to BrewStation® Line of Dispensing Coffeemakers

Hamilton Beach®

The last cup tastes as fresh as the first

Images of Hamilton Beach® products are available online at www.hbps-imagebank.com

Hamilton Beach introduces a sleek, modern update to their popular BrewStation® line of coffeemakers. “The BrewStation® Summit features an insulated tank that sits atop a gentle, keep-warm heater to store the hot coffee,” states Betty Byrne, consumer test kitchen manager for Hamilton Beach Brands. “This ensures heat and flavor stay inside; coffee is not scorched by left sitting on the traditional hot plate. The Summit also extends the auto shutoff to a maximum of four hours, up from the typical two hours”. With this Good Thinking™ from Hamilton Beach, coffee stays hot longer and tastes better too.

Brewing selections include bold, regular, small batch or iced coffee for up to 12 cups. Directions for preparing the popular iced coffee drink are included in the instruction booklet. Coffee prep is quick and simple with easy-to-read fill lines and accessibility from both sides when filling the tank. A non-slip dispensing bar provides flexibility when filling a cup or travel mug.

The Summit’s modern design and small footprint looks great on countertops.

KEY FEATURES

Coffee Stays Fresh Longer – Your last cup tastes as fresh as the first.™ Gentle heater maintains coffee’s hot temperature—no hot plate to scorch coffee’s flavor.

Adjustable Auto Shutoff – Customizable from 0-4 hours, up from typical 2 hours. Coffee stays hot longer.

Insulated Tank – Helps prevent heat and flavor from escaping to keep coffee tasting fresh.

Versatile Brewing – 12-cup capacity. Choose to brew bold, regular, small batch or iced coffee.

One-Hand Dispensing – Non-slip dispensing bar provides flexibility. No carafe, no pouring, no spills.

Modern Design – Small footprint with a sleek, modern design. Looks great on countertops.

MSRP – \$54.99 (Model 48463); \$59.99 (Model 48464); \$69.99 (Model 48465)
