Good Thinking® Features

One-Hand Dispensing – No carafe means you simply place the cup or travel mug against the dispensing bar and gently push. Coffee goes right into mug without messy drips or spills.

Coffee Stays Fresh Longer – No hot plate to scorch coffee flavor. Coffee is brewed into an insulated reservoir that sits atop a heater, which keeps coffee at a hot, consistent temperature.

Versatile Brewing - Brewing selections include bold, regular, small batch or iced coffee. An adjustable auto shutoff is customizable from 0 to 4 hours, up from the typical 2 hours.

BPA Free in Food Zones - Coffee-dispensing reservoir contains no BPA (bisphenol A).

Iced Coffee

Ingredients

12 tablespoons ground coffee
Coffee filter
Water – to 6-cup line
Ice cubes

Directions

1. Pour water into water tank.
2. Fill coffee tank ½ full of ice cubes.
3. Place filter and coffee in filter basket.
4. Set auto shutoff to 0 hours.
5. Dispense coffee in glass over ice.

Yields: Six 8 oz servings
