Hamilton Beach® Easy Access Countertop Oven

Convection, Bake, Broil & Toast: Take countertop cooking to the next level with the new Hamilton Beach® Easy Access Countertop Oven. Cook with convection, bake, broil and toast in the convenience of one appliance. Use the convection function to cook food faster and more evenly. Try using convection to bake pastries and pies; or roast chicken, beef and even vegetables.

Extra Large Capacity: This countertop oven has all of the traditional functions, while offering more space for bigger batches or larger meals. The Easy Access oven can fit an entire 12" pizza or a six-pound chicken, as well as up to six slices at once for toasting. The Easy Reach door moves up and out of the way, allowing this oven to easily fit under cabinets.

Easy Clean-up: A front access slide-out crumb tray allows for easier clean-up. Simply unlock the Easy Access glass door and lift up for a quick, effortless wipe down after use.

Additional Features: The auto-shut off feature helps prevent overcooking and the stay on setting keeps food heated after cook time is complete. Three controls with easy turn knobs allow for versatility and precision while cooking. The separate toast timer makes shade selection simple.
