

Hamilton Beach®

Hamilton Beach® Wi-Fi Connected FlexBrew Coffee Maker

Never Run Out of Coffee Again – Avoid the dreaded moment when you go to brew your morning cup but have forgotten to restock your favorite coffee. The newest addition of the Hamilton Beach® Flex Brew Single Serve Coffee Maker is Wi-Fi connected and integrated with Amazon Dash Replenishment. Using the HBConnect App and Dash Replenishment, your coffee maker will automatically reorder your single serve packs of coffee via Amazon.

Easy Set-Up, Easy Mornings - Download the free HBConnect app to set up an account, as well as connect your FlexBrew to wi-fi and configure Dash Replenishment. During set up, you can choose from a variety of coffees that you would like automatically reordered with Dash Replenishment.

FlexBrew Single Serve – The Hamilton Beach® FlexBrew Single Serve Coffee Maker is equipped with a 40-ounce removable water reservoir and lets you choose between single serve packs or brewing with coffee grounds for ultimate flexibility. The machine also adjusts between an 8-ounce, 10-ounce or 14-ounce brew.

Keep Your Coffee Maker Brewing Longer – The HB Connect App will also send notifications and tips for cleaning and maintaining your machine. This single-serve brewer and App can also automatically order replacement water filters based on number of brews, for fresher, better tasting coffee every time.
