

Hamilton Beach®

Hamilton Beach® Whole Fruit Juice Extractor

Fast and Powerful Performance - Convert whole fruits and vegetables into an eight-ounce glass of juice in as little as nine seconds. The 700-watt dual-speed motor extracts maximum juice from either hard or soft fruits and vegetables without clogging.

Save Time - This juicer is equipped with a three-inch chute so you can fit most apples, oranges, celery, carrots or leafy greens with confidence (and without precutting). Enjoy spending more time sipping your favorite juice and less time prepping food. It's a great juicer for anyone with a busy schedule.

Smooth Results - The stainless-steel micromesh filter efficiently strains away pulp and seeds, keeping them out of your glass. The BPA-free pitcher separates foamy froth ensuring you get the type of juice you want every time.

Easy to Clean - The pitcher, lid, micromesh filter, pulp bin and cleaning brush are all dishwasher safe making clean up quick and stress free.
